## Summary

I am a passionate programmer transforming my hobby into a professional career. Graduating top of my class with a GPA of 4.99 out of 5, I excel in Flutter development using SSMS and aim to make a significant impact in program and system development.

With experience in various projects and companies, I create efficient, user-friendly applications. My quick learning, adaptability, and strong communication skills enable effective teamwork and high-quality results under pressure.

## Skills

Flutter development using SSMS | Strong problem-solving and decision-making abilities |  
Attention to detail and focus on customer satisfaction | Excellent communication and teamwork skills |  
Full-Stack Developer | Effective time management and task organization

## Experience

**KACST (Health Department), Riyadh**  
*University Trainee, 01/2024-03/2024*

At KACST, the focus of our training was on artificial intelligence and Java. We developed innovative applications using AI technologies and Java programming, addressing complex challenges and advancing technological capabilities.

- Collaborating on AI-driven projects to develop cutting-edge applications.
- Implementing AI algorithms and models to enhance application functionality.

## Education
